SmartPens 4U

Thank you for buying RocketPen Exam from SmartPens4U.

RocketPen Exam is designed to be a reading assistant, and our goal is to make you an independent reader. Whether you need to read exam questions, do your homework, or simply want to read your favorite novel, we hope reading becomes less challenging and more enjoyable for you.

RocketPen Exam is a stand-alone and self-contained product and works without being connected to any other device or network.

For technical specification and further information regarding additional features, supported languages, upgradability, battery, etc., please see: www.smartpens4u.com

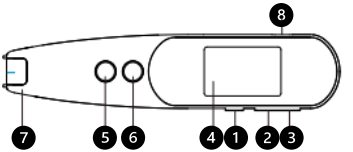
RocketPen Parts



1 – Power On/Off
Press 3 seconds to power on or off. Press briefly to return from power-saving mode.

2 – Volume down button

3 – Volume up button

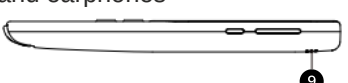
4 – Screen
The device's display touch screen

5 – Read aloud button

6 – Back button

7 – Scan Trigger
Automatically activated when the pen is in contact with a surface. Scan light is turned on

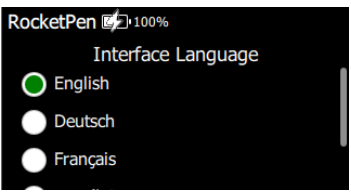
8 – Type-C USB connector
Used for charging, upgrading and earphones



9 – Speaker
Used when text is read aloud. Muted when earphones are connected.

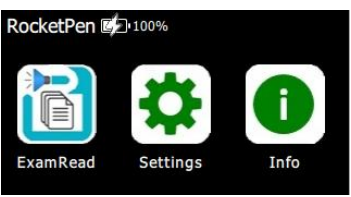
Getting Started

Press and hold the Power button for about 3 seconds. When the RocketPen Exam logo appears, release the button. After that, a logo animation should run, followed by Interface Language selection window:



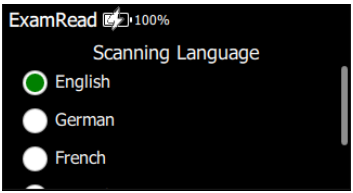
(Note: If the display does not light up, charge the device for about 30 minutes).

After selecting the required Interface Language, the main menu appears:

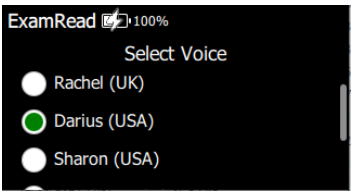


ExamRead Application

1. Press the ExamRead application. A **Scanning Language** selection window appears:



2. Once a scanning language was selected, a **Select Voice** list appears:



3. After selecting the required voice, press Back button and “Ready to Scan in…” screen appears:

4. There are 2 scanning modes:
   a. Continuous scanning
   b. Single line scanning.

The default is *Continuous scanning*. Scan the lines one after another. By pressing the Read aloud button , the entire scanned text will be read aloud. Each word will be highlighted as it is spoken.

To activate single line scanning mode, press the icon.
To reactivate continuous scanning mode, press the icon.

Reading Aloud
To read aloud the entire scanned text, press the Read aloud button and the scanned text will be read aloud. If you wish to read only part of the scanned text, click on the word you wish to start from, and then press the Read aloud button. At any moment, pressing the Back button stops reading aloud.
